GRO-BARK®

BIORETENTION BLEND

Technical Data Sheet

PRODUCT IDENTIFICATION

Product: Bioretention Blend
Manufacturer: Gro-Bark Ltd.
Weight of Product: ~932.06 Kg/CY*

PRODUCT DESCRIPTION & DIRECTIONS FOR USE

Gro-Bark's® Bioretention Media was created from a blend of high quality native soil, uniform sand, aged bark and leaf and yard compost. This proprietary blend is formulated to promote ideal stormwater infiltration while sustaining and promoting plant growth. A full topsoil analysis is available upon request.

Gro-Bark's® Bioretention Media is specifically formulated for use in a variety of Low Impact Development (LID) applications such as bioswales, rain gardens, bioretention cells and stormwater planters. This media can be used as a growing medium for a wide variety of plant material, while maintaining a high rate of infiltration over the lifespan of the system. It retains contaminants through filtration and adsorption to soil particles.

Cautionary Statement for Using and Handling this Product: Store in a cool dry place; Handle compost with gloves and wash your hands after handling this product. The product is not to be ingested. Keep product out of the reach of children and pets.

*Material weight is subject to change with fluctuations in moisture content.

GUARANTEED MINIMUM ANALYSIS

Active Ingredient:	**5% Compost (Leaf and yard residues)**
Minimum Organic Matter:	**10%**
Maximum Moisture:	**50%**
Total Nitrogen (N):	**0.2%**
Available Phosphoric Acid (P_2O_5):	**0.1%**
Soluble Potash K_2O %:	**0.1%**
