

Mass Timber Protective Coatings

Mass Timber & Lumber Coatings

Low VOC Protective Coatings

Protect materials from weathering, dust, and moisture at every stage from manufacturing and storage to transportation. Designed to maintain Mass Timber products' durability and performance, both during installation and throughout its functional lifespan.

Reliable, High Performing Formulas

Our specialized coatings are designed to meet the unique demands of interior and exterior applications, offering superior protection against moisture, UV exposure, fungi and mold.

Efficient Manufacturing Process

Engineered for both machine and manual application, these coatings ensure smooth, multi-sided coverage during manufacturing. The quick-setting formula minimizes production line waiting times, enhancing efficiency.

Product Selection Guide

Mass Timber Coating	Features & Benefits
Aqua Shield 201	Desired durability and gloss for indoor applications
Aqua Shield 202	Long lasting outdoor protection to reduce swelling and shrinkage
Aqua Shield 203 / K-7067	Enhanced surface protection for transportation to jobsites
Aqua Shield 204	Enhanced surface protection formulated for quick absorption and drying
Aqua Guard 211 / 221	Topcoat for extended weathering protection
UV and Fungicide versions available	

Strategically located to serve the woodworking industry throughout the United States and Canada with three manufacturing facilities located in:

■ Portland, OR ■ Orangeburg, SC ■ Burlington, ON

Mass Timber Protective Coatings

4401 SE Johnson Creek Blvd,
Portland, OR 97222
